## **QUANTUM**

## **ADVANTAGES**

- Integrated control system
- Three sizes small footprint
- Air volume from 1,500 m³/h up to 5,500 m³/h (900 3,200 cfm)
- Plug & play

- Integrated spark arrestor
- Dual pulse cleaning technology
- Efficient PTFE filter cartridges
- Integrated, sound-insulated fan

Application	Manual welding. Manual grinding Non-explosive fine dust
Installation Options	<ul> <li>The system is available in three different sizes, handling air volumes from 1,500 m³/h up to 5,500 m³/h (900 cfm - 3,200 cfm).</li> <li>The small footprint of the dust collectors allow flexible installation close to the process what reduces costs for ductwork.</li> <li>Each model size can be configured to meet the specific challenges faced by the customer</li> <li>Plug &amp; play</li> </ul>
Comment	Innovative Dual-Pulse Cleaning System: - Unique dual section design prevents accumulation of dust on top of filters - Provides uninterrupted airflow during pulse cleaning - Provides longer filter life - Reduced compressed air consumption - High efficiency PTFE filter cartridges
